Part One: General Marking Principles for Spanish Advanced Higher – Listening and Discursive Writing

This information is provided to help you understand the general principles you must apply when marking candidate responses to questions in this Paper. These principles must be read in conjunction with the specific Marking Instructions for each question.

(a) Marks for each candidate response must always be assigned in line with these general marking principles and the specific Marking Instructions for the relevant question. If a specific candidate response does not seem to be covered by either the principles or detailed Marking Instructions, and you are uncertain how to assess it, you must seek guidance from your Team Leader/Principal Assessor.

(b) Marking should always be positive ie, marks should be awarded for what is correct and not deducted for errors or omissions.

GENERAL MARKING ADVICE: Spanish Advanced Higher – Listening and Discursive Writing

The marking schemes are written to assist in determining the “minimal acceptable answer” rather than listing every possible correct and incorrect answer. The following notes are offered to support Markers in making judgements on candidates’ evidence, and apply to marking both end of unit assessments and course assessments.

Section I – Listening
Section II – Discursive Writing

General Procedure

1. Before marking proper begins, it is the responsibility of the marking team to fix appropriate standards. The marking process will therefore be divided into two stages: a preliminary stage which will be explanatory and aimed at establishing the standards to be applied, and the marking stage when scripts will be marked according to an agreed scheme, on the basis of photostat scripts.

2. Preliminary Stage

This covers the period from the time the markers receive their scripts and photocopies to the Marker's Meeting.

When you receive the first batches of scripts, you should read a sufficient number to feel you have a reasonable impression of the general level of the candidate’s work, then mark provisionally in pencil only, as many as you can before the Marker’s Meeting with the purpose of testing how the Marking Instructions work in practice. While carrying out this provisional marking, any points which have not been covered by the key, and any other points which may help with the process of standardisation, should be entered on one of the copies of the Marking Key.

The photostat copies should also be marked and brought to the Marker’s Meeting, where they will serve as a basis for comparison of standards and general discussion on marking.
3 Markers’ Meeting

In discussion of these Instructions and the photostat scripts, you will have the opportunity of discussing any points of difficulty or any doubt on matters of procedure or marking. You should bring both copies of the Marking Instructions to the meeting, the one with the preliminary notes, the other for the insertion of any amendments made at the meeting. The second, revised copy should be used as the basis for the marking proper. The decisions made at the Marker’s Meeting will be binding on markers, and the Marking Instructions, as revised, must be followed closely. Should any reservations occur to you during the course of marking proper, you should mention them in your report, but if the preliminary stage is carried out thoroughly, such reservations should be infrequent.

You may also bring selected scripts with you to the Marker’s Meeting if you have encountered any particular points of difficulty which may warrant the examination of complete scripts. However you must scrupulously observe the Scottish Qualification Authority’s ruling that scripts may not be read or marked in public places or on public transport. In general, you must observe the highest standards of caution when carrying scripts about with you. (See Terms and Conditions of Employment of Markers on Form Ex51 (a) sent with your letter of invitation to serve as a marker.)

4 Marking Stage

(a) This covers the period from the Markers’ Meeting until the final date for the return of scripts to SQA. By that date all marked scripts, Mark Sheets and Reports should be returned to SQA. Marking should be carried out according to the following scheme, taking into account any modifications of detail which may be decided on at the Markers’ Meeting.

(b) The mark for the Listening section of this paper is out of 30; the mark for the Discursive Writing section is out of 40.

(c) For Section II, you are requested to keep a record of the number of candidates attempting each question. This information should be included in your Marker’s Report.

(d) In the case of serious doubt about an assessment, you must award a mark and then refer the piece of work to the Principal Assessor. To do this, write “PA Referral” underneath the “For Official Use” section on the front of the script and complete a Principal Assessor Referral form (copies of which are enclosed in your marker’s pack). (Also see ‘Entries on the Mark Sheets’ sub-para 3). Do not write the reasons on the script itself. Do not make any entry on the outside of the envelope.

Section II – Discursive Writing

Notes on procedure

1 There are **40 marks** awarded to the Discursive Writing section.

2 The mark should be awarded on the basis of your general evaluation of the essay based on the Pegged Mark Descriptors on the following page.

3 **Credit**, indicated by a tick where appropriate, should be given for anything good, and may be gained, for example, by a good use of idiom, a well-handled syntactical construction, variety of constructions; a well-organised plan, well-constructed paragraphs, appropriate use of varied register, the sophistication of ideas expressed.

   Ticks should not be formally totalled. Instead, they will support a general impression, again based on the Pegged Mark Descriptors.

   You may wish to underline errors, again, in order to enhance the overall impression of the candidate’s performance.

4 Poor handwriting, spelling and punctuation may be self-penalising

5 The mark awarded should be entered in the **outer right-hand margin** at the end of the question, and then added to the mark for Section I. The resulting total must be entered in the space provided on the outside front cover of the script and transferred to the Mark Sheet.
